

Text Fields

Last Modified on 01/28/2021 1:45 pm EST

A text field allows users to enter a single line or multiple lines of plain text or rich text formatting, depending on the field's settings, with optional concatenations and form translations.

For more information on additional options on these fields, see the following:

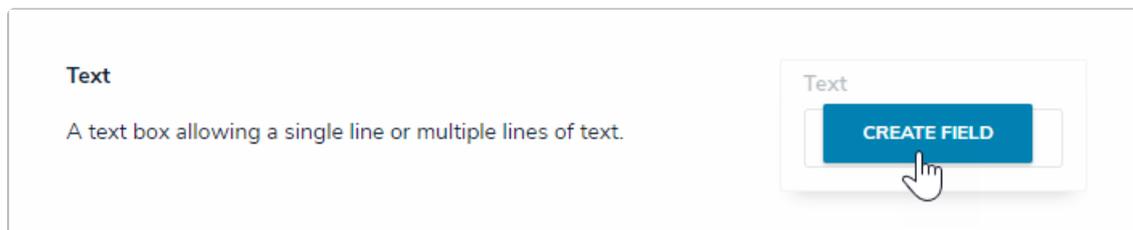

- [Text Field Concatenations](#)
- [Rich Text Formatting](#)
- [Form Translations](#)

A screenshot of a text field labeled "Address" with a light blue border. The field contains two lines of text: "1234 Street Avenue" and "Edmonton, Alberta, A01 1A0". The cursor is positioned at the end of the second line.

A multiple-line plain text field on an object.

To create a text field:

1. Click the  icon in the top bar > **Fields** in the **Data Model** section.
2. Click **Create Field**.
3. Hover your cursor over the **Plain Text** field type, then click **Create Field**.

The Text field type.

4. Enter a name for the field as it will appear on an object type in **Field Name**.
5. **Optional:** If needed, provide additional information or instructions on completing the field in the **Long Name** section, which can be styled using [Markdown](#). You can choose to display a field's long name on configurable forms.

Contact Information

Long Name ?

The Field Name and Long Name fields.

6. Select one of the following text types:

- **Single Line:** For a single line of plain text.
- **Multiple Lines:** For multiple lines or paragraphs of plain text.
- **Rich Text Format:** For up to 20,000 characters in an RTF editor. See the [Rich Text Formatting](#) article for more information.

7. **Optional:** To enter character requirements for single or multiple line text types:

- a. Enter a minimum number of characters the user must enter in the field. If you select a maximum number of characters in step 7 below, the minimum number must be less than or equal to the maximum.
- b. Enter a maximum number of characters the user can enter in the field. If you selected a minimum number of characters in step 6 above, the maximum number must be greater than or equal to the minimum.

Minimum Characters

e.g. 10, 140, etc.

Minimum Characters is optional. It must be a whole number less than or equal to Maximum Characters (if set).

Maximum Characters

e.g. 10, 140, etc.

Maximum Characters is optional. It must be a whole number greater than or equal to Minimum Characters (if set).

The Minimum Characters and Maximum Characters fields.

8. Click **Create** to will display the **Editing Field** page.
