

# Organizations Overview

Last Modified on 10/01/2019 3:04 pm EDT

An **organization** is an agency, such as the local police or fire department, that may need to be dispatched to the scene of an activity. Organization records are created and configured in Command Center; however, you can select these records as [available organizations](#) (organizations that you can quickly select to dispatch to the scene of an activity).

This chapter outlines how to add an organization for quick and easy dispatch. For more information on service requests or organization logs, see [Service Requests](#) or [Organization Logs](#).

*The Organizations panel displaying available organizations.*

*The Dispatch Organization right-click menu displaying previously linked organization in the Dispatches panel.*
