

Quick Add

Last Modified on 10/01/2019 3:04 pm EDT

Depending on your [user group](#), you can create new objects using the **Quick Add** feature. The object types displayed in Quick Add are determined by the object types you have permission to access.

This feature is available on any page through the [top bar](#) and can be accessed by clicking the , then selecting the applicable object type from the dropdown menu.

The Quick Add feature. The object types displayed in this dropdown menu are determined by your role's permissions.
