

Version 3.4 Release Notes (Compliance Management)

Last Modified on 04/28/2021 6:30 pm EDT

Note: The following features are not added to Compliance Management by default. For information on adding these features to your version of the app, contact your CSM.

New Features

Library Updated Requirements Report & Data Grid

- A new report and data grid have been added to the app that will grant users a view of all requirements that have been updated in the library by the Resolver Content Team. This will allow users to easily keep track of what has been updated on the app, and will help to inform the planning process for assessments.

CF-5 Canadian Anti-Spam Legislation

The following report outlines all regulatory requirements that have been updated for this Compliance Framework. Review the new and updated requirements to determine if any changes will impact your assessments.
To acknowledge the changes, click on the requirement or requirement detail and use the pallet to change the "Regulatory Update" field to "Update Acknowledged" or "Not Applicable". Upon refresh of this report, acknowledged and not applicable requirements/requirements details will no longer appear.

Requirement Unique ID	Requirement Name	Requirement Description	Source of Requirement	Date Updated	Effective Date	Regulatory Update	Requirement Detail Unique ID
Req-165	Need for Consent	In the course of carrying on a commercial activity, a person may not send unsolicited electronic messages to a recipient for the purposes of encouraging commercial activity (CEM), unless they have the consent of the recipient.	CASL s.1 CASL s.6 Regs s.3 and 4 (https://crtc.gc.ca/eng/archive/2012/2012-183.htm) CRTC Guidance on Implied Consent (http://www.crtc.gc.ca/eng/com500/guide.htm)	May 11, 2020	May 11, 2020	● Updated Regulatory Requirement	RD-1009
