

Logging Into Resolver

Last Modified on 12/23/2024 4:30 pm EST

Overview

The Primary Administrator will receive their login credentials from Resolver®. All other users will receive an automatic email from the **Resolver Notifications** <noreply@resolver.com> address with instructions on creating a password when an Administrator creates an account for you.

Tip:

*If you have not received an activate profile email, please check your email folders (junk, etc.) for an email from **Resolver Notifications** <noreply@resolver.com>.*

Example -Activate Profile Email

Note:

The login screen indicates which country your data is currently being stored in. See the [Data Region](#) article for more information.

Related Information/Setup

Single Sign-On (SSO)

If your organization is uses SSO authentication to log in, please refer to the Single Sign-On (SSO) category for further information.

- [Single Sign-On \(SSO\)](#)

Multi-factor Authentication

If multi-factor authentication (MFA) has been configured for your user, open your **Authenticator App**, enter the **6-digit code** into the **Resolver MFA** screen and click the **Verify** button. To set up MFA for the first time or after an MFA reset, review our [Multi-Factor Authentication User Setup guide](#).

Multi-Factor Authentication Screen

IP Authorization Control

IP authorization helps Administrators control who is accessing specific Orgs based on their IP address. It can be configured to validate all users, including SSO or users signing in with a username and password.

If IP Authorization Control is enabled, your IP address will be validated against the entries on the Org's IP allow list. If your address doesn't match any of the entries, that Org will not be accessible after login. You will see an Access Denied error after you login If you don't have access to any Orgs due to failed IP address validation.

The screenshot shows a web browser window with the Resolver logo (a black square with a white 'R.') and the word 'Login' in the top left. A prominent red banner across the top of the login area contains the text 'Access Denied. Please contact your administrator.' Below this banner, the label '* Email Address' is positioned above a text input field. The input field contains the text 'user@domain.com' and is outlined with a red border. To the right of the input field is a blue button with the text 'LOGIN' in white. At the bottom of the page, centered, is a small Canadian flag icon followed by the text 'Your data is stored in Canada'.

Access Denied Login Error

Please refer to the IP Authorization category for more information, including functionality for additional login scenarios.
