

Adding a Report to the Home Screen (Starred Reports)

Last Modified on 05/17/2024 11:00 am EDT

Overview

Users can favorite reports within the system by clicking the **Star** icon on the *Report* screens.

Starred Reports will appear in the **Tab** section on the user's *Home* screen, next to the *My Tasks* tab. The system uses the Report's name as the name of the Tab on the *Home* screen.

Starred Report Tab

Once a Starred report is opened, the report data is not updated. The data represents a snapshot of the report data. Click the **Refresh** icon to update the report data on the open report.

Related Information/Setup

Please follow the link below for more information regarding the Navigation Bar.

• User Interface

Please follow the link below for more information regarding the My Tasks section.

• My Tasks

Please follow the link below for more information on refreshing report data.

• Loading & Caching Reports

Navigation

The Report types and Tab Labels will vary depending on the App you are currently logged into, and they may not reflect the exact Report types and Tab Labels reflected on your screen. For illustration purposes, we are using the Risk Management App. However, the navigation and functionality are the same for all Resolver Applications.

1. From the *Home* screen, click on the **Home** dropdown.

Home Dropdown

2. Click the **Reports** link from the **Home** dropdown menu.

Adding a Report to the Home Screen

Data Grids and Data Analytic reports cannot be added to the *Home* screen.

Adding a Repeatable Form report to the *Home* screen can cause performance issues, depending on the amount of data within the report.

1. From the Report, click the Star Icon.
