

Starring Items on the Home Screen

Last Modified on 05/28/2025 10:51 am EDT

Overview

Users can star reports, objects, and dashboards so that they appear in the **Starred** widget on the *Home* screen.

Starred Widget

Warning:

All starred reports are currently pinned by default and cannot be unpinned. This will be resolved in a future release.

Related Information/Setup

To learn more about pinning items to the *Home* screen, please refer to the [Pinning Items on the Home Screen](#) article.

Starring Items on the Home Screen

1. From the report, object, or dashboard you want to star, click the **Add to Home** icon.

Add To Home Icon

2. **(Optional):** From the **Add To Home** pop-up, in the **Label** field, type a name for the starred item.

Label Field

3. Click the **Add to Home** button.

Add to Home Button

4. The **Add To Home** pop-up will close, and the **Add To Home** icon will appear solid, indicating that the item has been starred on the user's **Home** screen.

Starred Item

- To remove the starred item from the **Home** screen, from the starred item, click the **Add To Home** icon, and then click the **Remove From Home** button.
