

Create a Form View

Last Modified on 02/21/2025 4:17 pm EST

Overview

A **Form View** is a list of objects or assessment objects. Admins can specify which objects and forms are displayed based on the object type and workflow state.

User Account

The user account you use to log into Resolver must have Administration permissions.

CREATE

View Section

- **Name:** Enter the Name of the Activity View in the **Name** field. The **Name** will appear as a header below the Activity View.
- **(Optional) Description:** Enter a description in the **Description** field, which appears when a user has opened the Activity View. If necessary, apply [Markdown](#) formatting to the text. Click the **Expand** icon beside **Basic Markdown Formatting** to view popular formatting styles.

The screenshot shows the 'Application Management' interface with the 'Applications' tab selected. The form contains the following fields:

- Name:** A text input field with a required field asterisk.
- Description:** A large text area for entering a description.
- Basic Markdown Formatting:** A section with a red box highlighting an 'Expand' icon (a square with a plus sign) to the right.
- Object Type or Assessment:** A dropdown menu.

Expand Icon

- **Object Type or Assessment:** Select an object type or [assessment](#) from the Object Type or Assessment dropdown menu to specify which Objects will be available in the Activity View.
- **Workflow States:** Select one or more assessment or object type states from the Workflow States dropdown menu to specify which objects or instances will be displayed based on their current states. Workflow State options are based on the option selected in the Object Type or Assessment dropdown.
- **View Action:** Select **Form** from the **View Action** dropdown menu.
- **Define Form to Show:** Select a previously created **Form** from the **Define Form to Show** dropdown menu.
- **Display Options:** Select a Display Option from the **Display Options** dropdown menu:
 - **Show view title when empty:** Shows the Activity View's activity title when the view has no data to display.
 - **Hide view title when empty:** Hides the Activity View's activity title when the view has no data to display.
- **Sorting Options:** Currently, two **Sorting Options** are available for Activity Views within the system, Property and Unique ID. Users can select whether to sort an Activity View by Unique ID Ascending or Descending by selecting a corresponding radio button. By default, the Unique ID Sorting Option is set to Ascending.

2. Click the **Create** button to add the Activity View to the system.
3. Repeat the above steps to add another Activity View to the system.
4. Click the **Reorder** icon, continue to hold the mouse button and drag and drop the Activity View to rearrange the Activity View order.

Reorder Icon

5. Click the **Edit** icon to edit an Activity View.

Edit Icon

6. Click the **Delete** icon to delete an Activity View. A **Confirmation** screen will appear. Click on the **Yes** button to delete the Activity View from the system.
