

Risk Owner & Delegate Overview

Last Modified on 02/27/2025 10:02 am EST

During the risk assessment process, the [Risk Team](#) assigns risks to users in the **Risk Owner & Delegate** user group. Users in this group are responsible for:

- Assessing risks and documenting the controls the organization has in place;
- Reviewing the issues and corrective actions for their assigned risks ; and
- Ensuring that key metrics such as KRI, incident, and loss event data, are up-to-date for their assigned risks.

Risk owners and their delegates have access to the [Portal](#) application only, unless they are assigned to additional user groups or have access to other Resolver apps.

Risks

Risks

The risk portal provides an overview of all the risks you have been assigned as a risk owner. The **My Risk Assessments** section provides an overview of all risks that require a risk assessment or are being actively monitored. Risks being monitored may require an update when KRIs change, loss events are documented, or the internal or external environment changes. **My Risks in Triage** are risks you have submitted for review by the risk team. Those risks will be reviewed and may be added to the corporate risk library.
