

Risk Limited Users Overview

Last Modified on 04/05/2023 5:14 pm EDT

The **Risk Limited Users** user group is a catch-all group that allows users to be assigned to any object handled by any owner role in the Risk Management app. Assigned objects are accessible via the [Portal](#) or the [My Tasks](#) page (if an action is required). For information on how to complete the activities of a particular owner, see their respective section in this guide.

The screenshot displays the Resolver application interface. At the top, the Resolver logo is on the left, and navigation icons (plus, search, menu, settings, help, user) are on the right. Below the header, there are tabs for 'Home' and 'My Tasks', with 'My Tasks' being the active tab. The main content area is divided into two columns. The left column contains a 'My Tasks' section with a 'SORT' dropdown and a 'SEARCH' input. It lists three tasks: 1. 'Inadequate documentation / records' (ID: I-1) with an 'OPEN' button, assigned on Oct 15th, 2020. 2. 'Business Continuity Risk' (ID: R-2.1) with a 'RISK ASSESSMENT' button, assigned on Oct 15th, 2020. 3. 'Business recovery and DR plans' (ID: C-48.2) with a 'SELF ASSESSMENT' button, assigned on Oct 15th, 2020. The right column contains three 'Workflow State' charts: 1. 'Control' chart showing a value of 1 on a scale of 0 to 2, with a 'Self Assessment' legend. 2. 'Issue' chart showing a value of 1 on a scale of 0 to 2, with an 'Open' legend. 3. 'Risk' chart showing a value of 1 on a scale of 0 to 2, with a 'Risk Assessment' legend.
