

# Password Requirements

Last Modified on 02/25/2025 2:25 pm EST

Your Risk Management password must contain at least 9 characters, which must include letters. Spaces are permitted.

When creating or resetting your password, you'll see a color-coded password strength indicator. Each color represents the following:

- **Red:** Your password does not meet any or most of the minimum requirements.
- **Yellow:** Your password does not meet some of the minimum requirements.
- **Green:** Your password meets the minimum requirements.
- **Blue:** Your password surpasses the minimum requirements.

*The Reset Password screen. In this case, the password entered in the New Password field does not meet the minimum requirements.*

Your password expires every 90 days. At the end of the 90-day period, you'll be prompted to change your password, following the requirements outlined above, after successful login. If you forget your password, you can send a reset link to your email account by clicking **Change Password** at the login screen.

You cannot reuse your current password when resetting it after expiry or resetting it via email.
