

Data Region

Last Modified on 07/31/2024 1:35 pm EDT

Overview

The user's geographical region information can be found in two locations within the system. An organization's geographical region is set up during the implementation of the system.

Geographic Region Locations

1. Users can review their current geographical region where their organization's data is stored from the **Login** screen.

A screenshot of the Resolver Login screen. At the top left is the Resolver logo (a black square with a white 'R.') followed by the word 'Login'. Below this are two input fields: '* Email Address' containing 'user@domain.com' and '* Password' containing 'Password'. To the right of the password field is a 'CHANGE PASSWORD' link. A blue 'LOGIN' button is positioned to the right of the 'CHANGE PASSWORD' link. At the bottom of the screen, a red-bordered box highlights a message: a Canadian flag icon followed by the text 'Your data is stored in Canada'.

Login Screen

2. When a user is logged into the application, they can view their geographical region by clicking the **Help** icon.

Help Icon

3. The geographical region information will appear at the bottom of the Help dropdown menu.
