

Security Assessment Team Overview

Last Modified on 02/27/2025 11:02 am EST

The security assessment team is responsible for designing and launching security risk assessments. Users in the **Security Assessment Team** user group complete the following tasks:

- Create new security frameworks;
- Review profiled locations;
- Create and scope security risk assessments;
- Create and review issues and corrective actions; and
- Review SRM reports.

The screenshot displays the Resolver Security Risk Management application interface. At the top, the Resolver logo is on the left, and a search bar, settings gear, help question mark, and user profile icon are on the right. Below the header is a navigation bar with 'Security Risk Management' (selected with a dropdown arrow) and other tabs: 'Location Profiles', 'Assessments', 'Issues & Actions', and 'Reporting'. The main content area is titled 'Location Profiles' and contains two sections. The 'New Locations' section shows a single entry: 'Corporate headquarters - 3272 Township Road 610 Barrhead County No 11 AB CAN' with a purple ID tag 'L-51' and a yellow 'Profiling' status button. The 'Locations - Profiled' section has a search bar and lists three entries: 'Headquarters - Riverdale Industries' (ID L-1, Active), '666 Eagle Crest Terrace, Arlington, FL' (ID L-2, Active), and '4 Waywood Hill, Fort Lauderdale, FL' (ID L-3, Active). Each entry has a purple ID tag and a blue 'Active' status button.

New Locations	
L-51	Corporate headquarters - 3272 Township Road 610 Barrhead County No 11 AB CAN Profiling

Locations - Profiled	
L-1	Headquarters - Riverdale Industries Active
L-2	666 Eagle Crest Terrace, Arlington, FL Active
L-3	4 Waywood Hill, Fort Lauderdale, FL Active

The Security Risk Management app as it's displayed to a user in the Security Assessment Team user group.
