

# Confidential Submissions Visibility Rules

Last Modified on 06/13/2024 11:39 am EDT

## Overview

The Confidential Portal allows Confidential users to submit sensitive information without revealing any Personal Identifiable Information (PII). After enabling the Submitter Property, Admins can configure Form sections to show or hide based on the user's input in the **Remain Confidential** section on the Confidential Submission Form by selecting either the **Yes (Confidential)** or **No (Not Confidential)** toggle switches.

---

## User Account Requirements

The user account you use to log into Resolver must have Administrator permissions.

---

## Required Information/Setup

You must set up email settings to enable the Submitter property on a Form. Please refer to the [Create an Email Setting](#) article.

- [Create an Email Setting](#)

For more information on Confidential Portal Submissions, please refer to the [Confidential Portal Submissions](#) article.

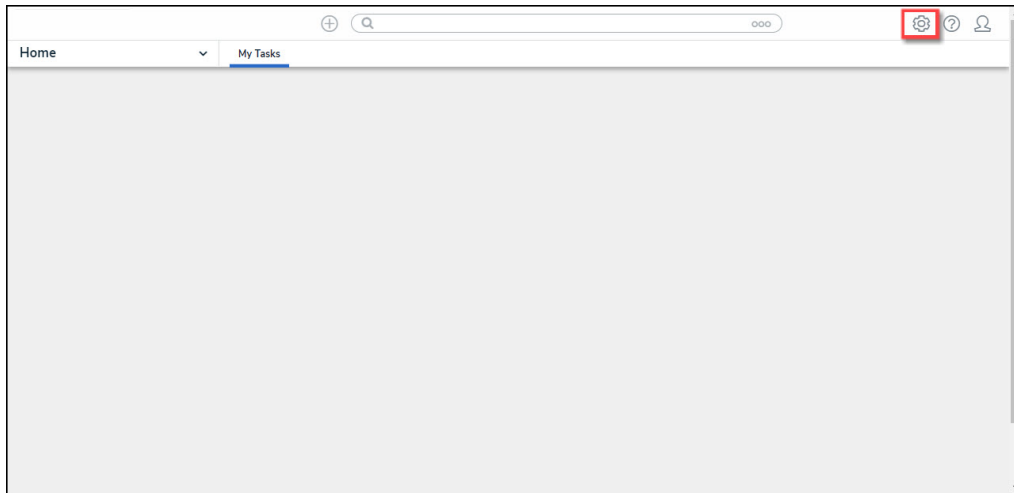

- [Confidential Portal Submissions](#)

After enabling the Submitter Property, Admins can configure Form sections to show or hide based on the user's input in the **Remain Confidential** section on the Confidential Submissions Form. Please refer to the [Enable the Confidential Submitter Property](#) article for more information.

- 

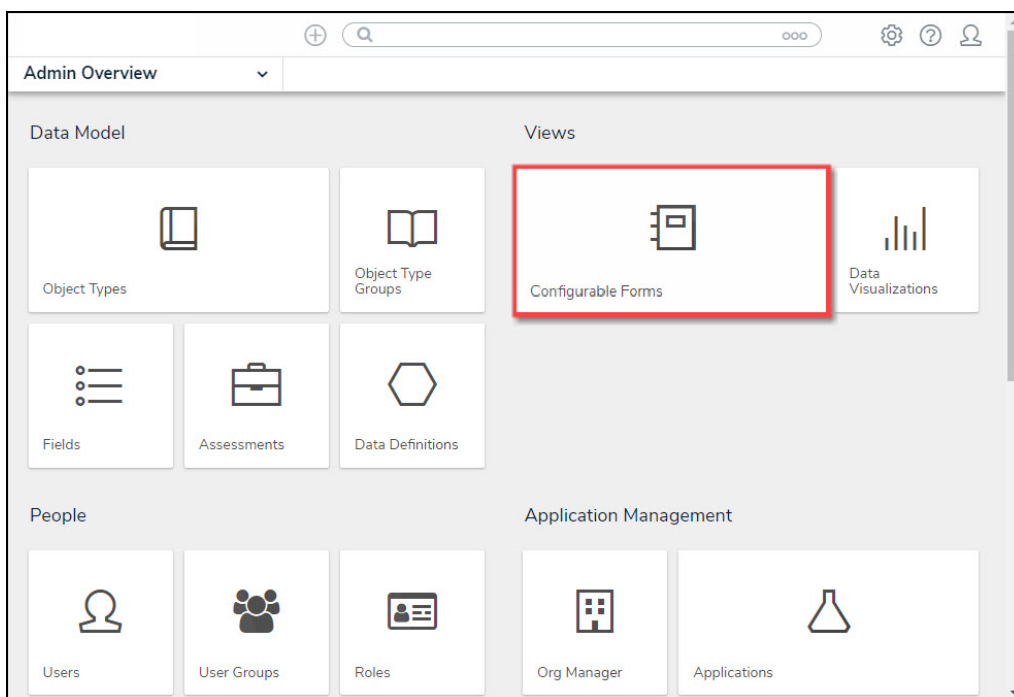

## Navigation

1. From the **Home** screen, click on the **Administration** icon.

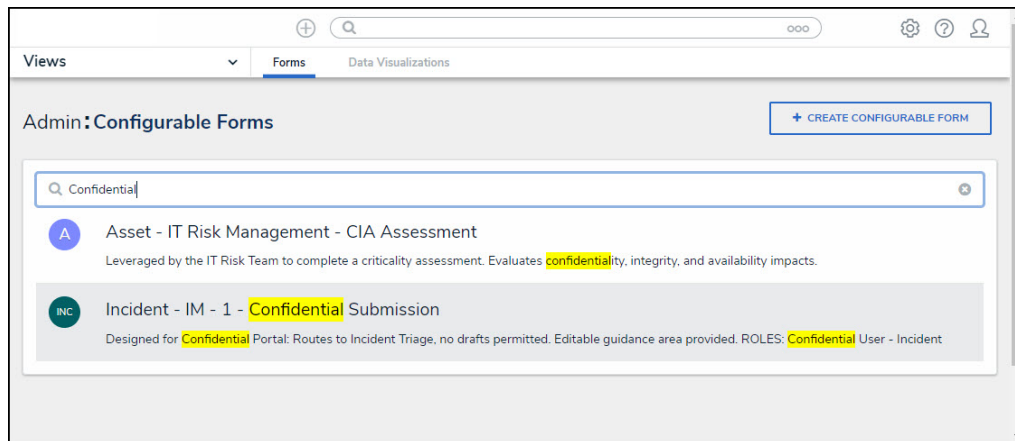

*Administration Icon*

- From the **Admin Overview** screen, click the **Configurable Forms** tile on the **Views** section.

*Object Types Tile*

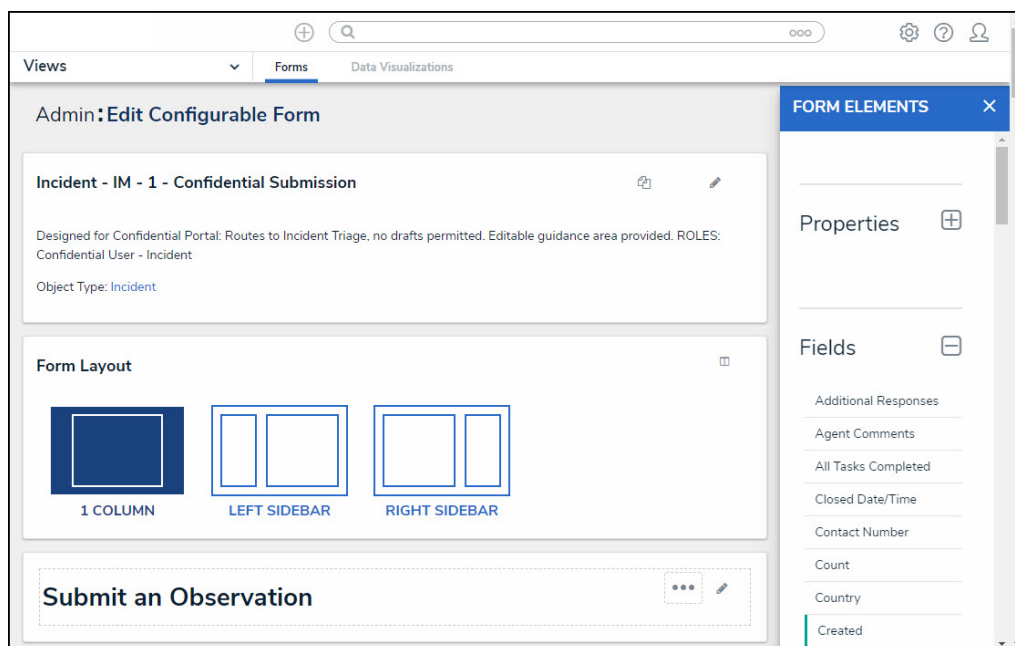

- From the **Admin Configurable Forms** screen, enter a keyword in the **Search** field to narrow the Forms list and select a **Form Name**.

*Admin Configurable Forms screen*

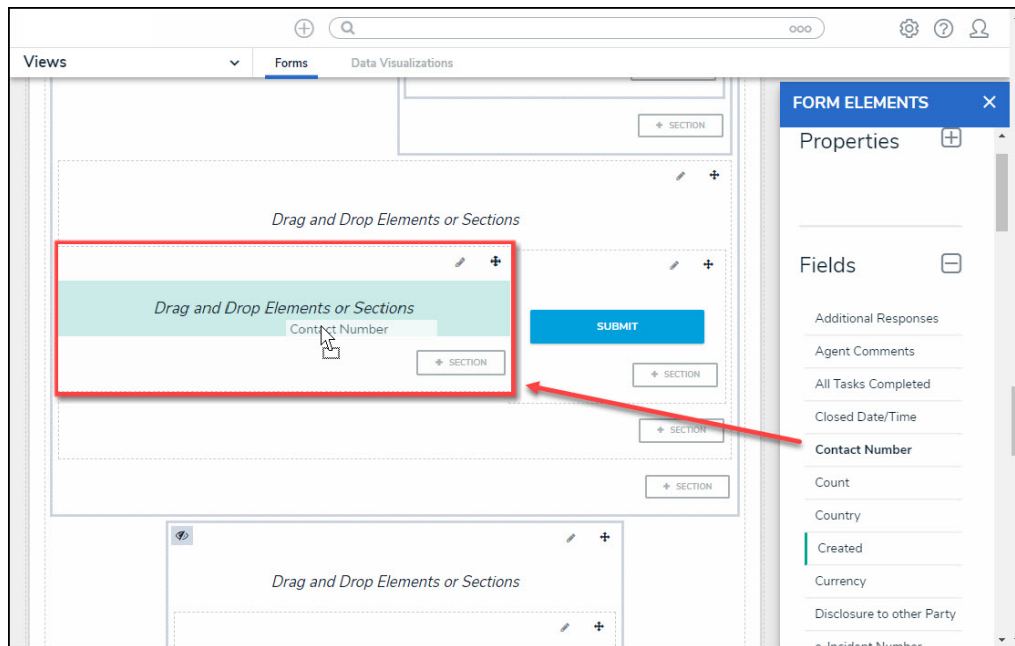

## Adjust Confidential Submission Visibility Conditions

1. The **Edit Configurable Forms** screen will appear.

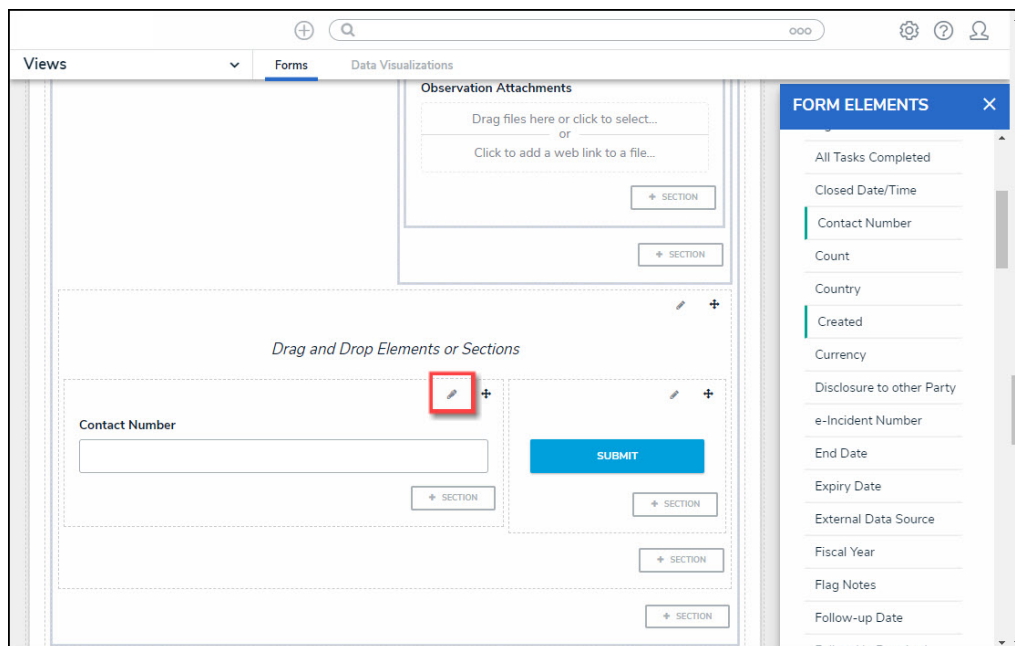

*Form Element Section*

2. Select a **Field** from the **Fields** section on the **Form Element** pop-up, and drag and drop a **Field** onto the Form.

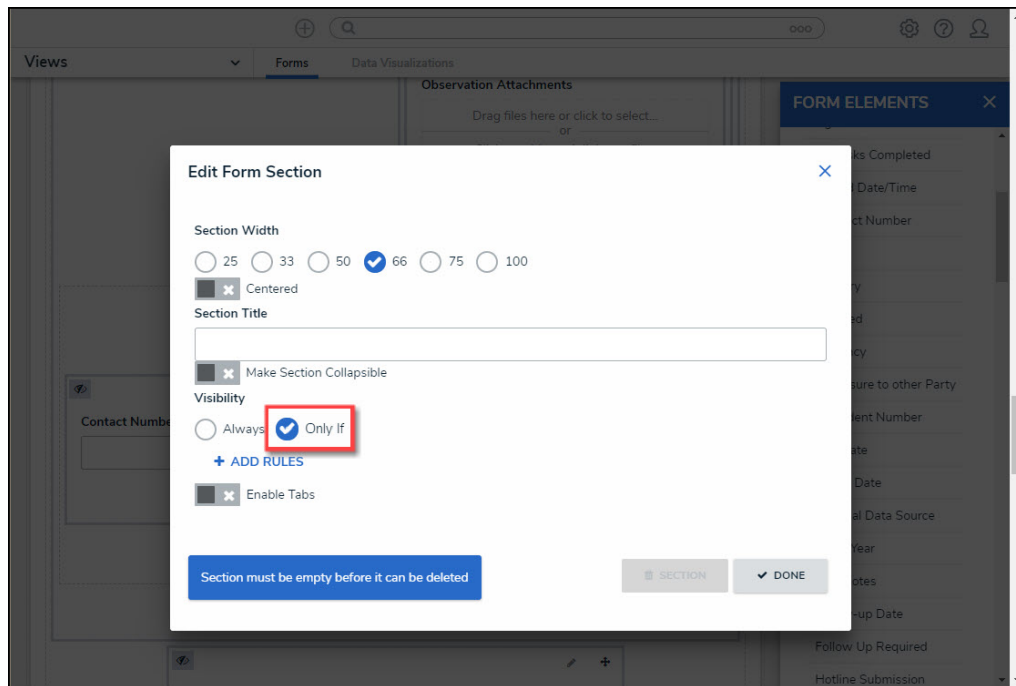

*Drag and Drop the Field onto Form*

3. Click the **Edit** icon on the **Forms Section**, just above the **Field** you added to the Form in step 2.

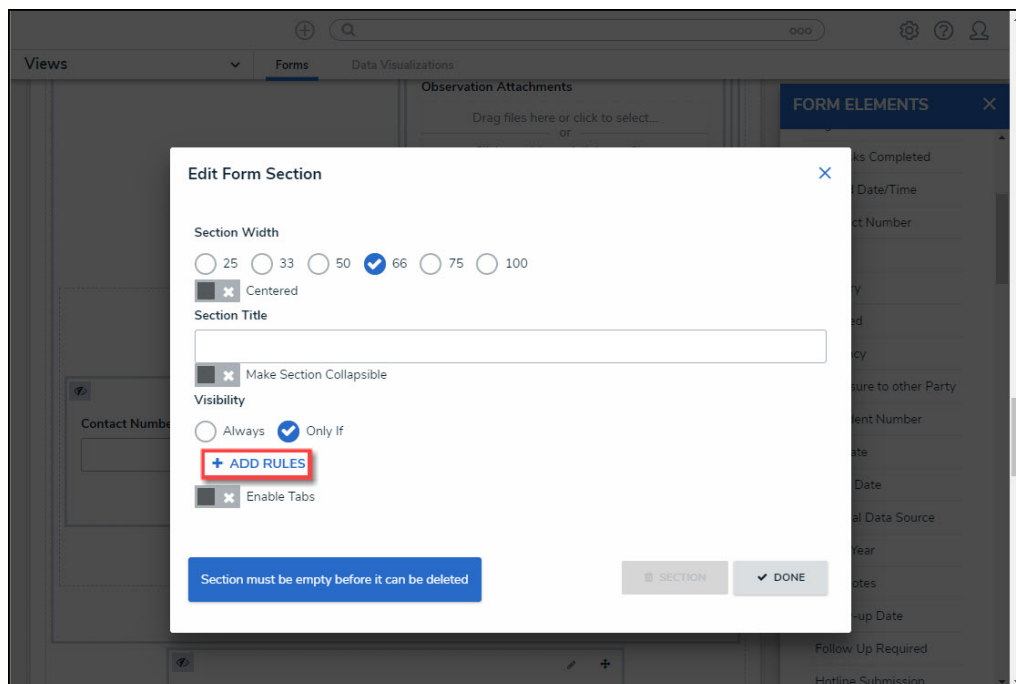

*Forms Section*

4. From the **Edit Form Section** pop-up, click the **Only If** radio button under the **Visibility** section.

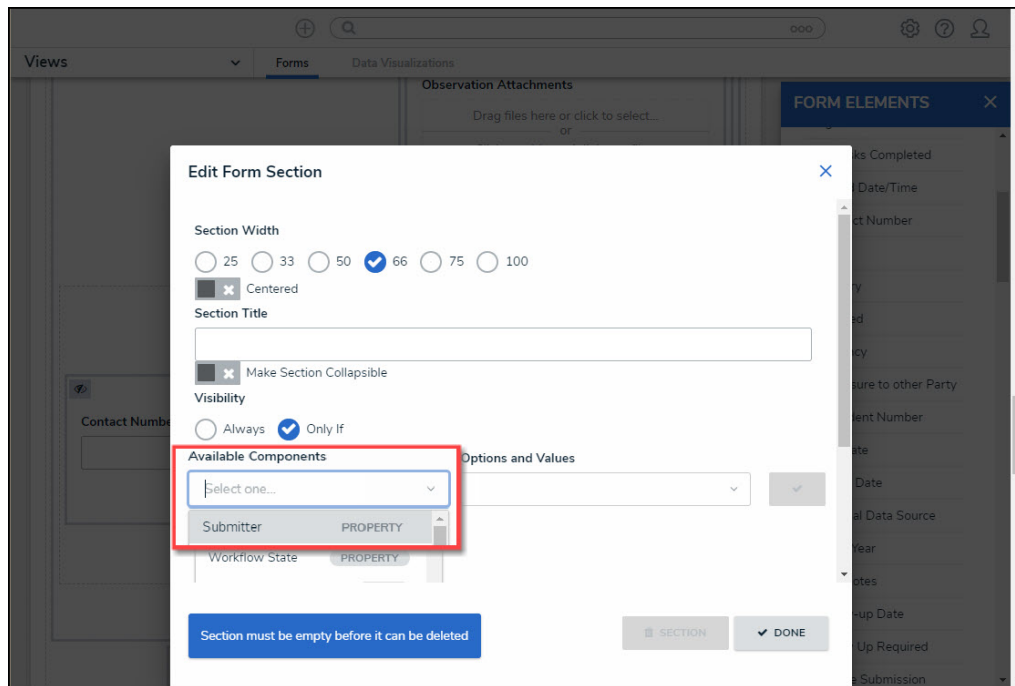

*Only If Radio Button*

- Click the **+ Add Rules** link.

*+ Add Rules Link*

- Click the **Available Components** field and select the **Submitter** property from the dropdown menu.

*Available Components Dropdown Menu*

7. Click the **Options and Values** field and select one of the following options from the dropdown menu. The **Only If** radio button works as an operator together with the **Available Components** and **Options and Values** fields to create a condition. The Condition must be met for the corresponding field and information to show on the Form.

- **Confidential:** Selecting **Confidential** will create the condition where the corresponding Field (Contact Number) will appear if the Submitter = Confidential (Yes).
- **Non Confidential:** Selecting **Non Confidential** will create the condition where the corresponding Field (Contact Number) will appear if the Submitter = Non Confidential (No).

The screenshot shows the 'Edit Form Section' dialog box. The 'Section Width' is set to 66. The 'Section Title' is empty. The 'Make Section Collapsible' checkbox is checked. The 'Visibility' is set to 'Only If'. The 'Available Components' list includes 'Submitter'. The 'Options and Values' dropdown menu is open, showing 'Not Confidential' as the selected value, with 'Confidential' and 'Not Confidential' as options. The 'DONE' button is visible at the bottom right.

*Options and Values Dropdown Menu*

**Note:**

The Submitter value (Confidential or Non Confidential) is based on the **Remain Confidential** section (Yes or No) when filling out the Form.

The screenshot shows the 'Confidential Submission' section. It has a dark background and contains the following text: 'The privacy of your identity is essential to us, as is the ability to interact Confidentially. By default, this form assumes you would like to identify yourself. If not, you can remove the ID fields and remain Confidential by choosing the Yes button below. When you are in Confidential mode, the field will appear with a dark background.' Below the text is a red box highlighting the 'Remain Confidential' section, which contains two buttons: 'NO' and 'YES'.

*Remain Confidential Section*

- Click the **Done** button to save your changes.
