

Version 22.1 Release Notes (IT Compliance Management)

Last Modified on 09/06/2022 11:16 pm EDT

New Features

Regulatory Content

22.2 Application release includes the following updated and expanded Content Frameworks for the ITCM application.

- Update: PCIDSS from version 3.2.1 to version 4.
- Update: ISO 27002 from version 2 to version 3.
- New Addition: FFIEC Cyber Security Assessment Tool

New fields added and some field revisions were configured to align with these additional and updated frameworks.

Enhancements for New Feature Enablement

Rescoping Launched Assessment

To allow the IT Compliance Team to Rescope an assessment, **ADD TO SCOPE** button to [Open Assessment Rescoping form action](#) has been added to forms for the progress/monitoring workflow states.
