

Publishing a Dashboard

Last Modified on 01/29/2025 4:42 pm EST

Overview

Administrators can publish a Dashboard when it is complete to allow other user access to the charts/reports within the Dashboard. Dashboards must be published to embed a Dashboard in a system Activity so users can view them.

User Account Requirements

The user account you use to log into Resolver must have Administrator permission or Data Management advanced permissions to publish a dashboard.

Related Information/Setup

Please follow the link below for more information on Embedding a Dashboard in an Activity.

- [Embedding a Dashboard in an Activity](#)

Navigation

1. From the **Home** screen, click the **Administration** icon.

Administration Icon

2. From the **Administrator Settings** menu, click the **Admin Overview** link.

Administrator Settings Menu

- From the **Admin Overview** screen, click on the **Dashboard Builder** tile under the **Views** section.

Dashboard Builder Tile

Publishing a Dashboard

- From the **Dashboard Builder** screen, click on a toggle switch next to the **Dashboard's Name**.

Toggle Switch

- A **Confirmation** pop-up will appear, indicating that when the Dashboard is published, it is

available to embed in an Activity. Embedding a Dashboard in an Activity makes the Dashboard available to other users within the system.

Confirmation Pop-up

2. Click the **Yes** button to publish the Dashboard.

Published Dashboard

Alternate Method

1. From the **Dashboard Builder** screen, click on the **Dashboard's Name**.

Dashboard's Name

- From the **Dashboard** screen, click on the **Publish** button.

Publish Button

- From the **Confirmation** pop-up, click the **Yes** button to Publish the Dashboard.

Yes Button

- Refresh the **Dashboard** screen. The **Status** indicator will now read Published instead of Not Published.
