

Form History Overview - History Tab

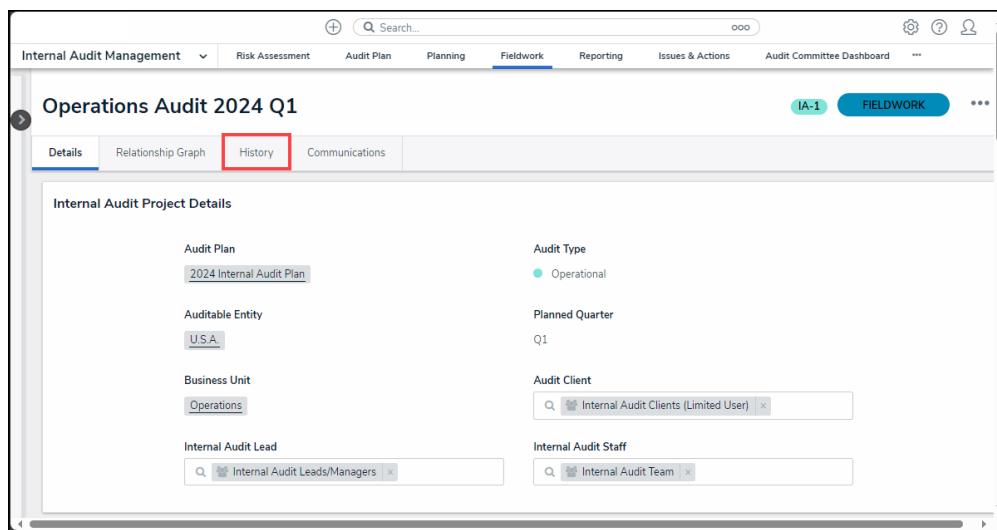

Last Modified on 06/06/2024 2:27 pm EDT

Overview

Users can track changes on elements within the system by accessing the History tab on an element.

Navigation

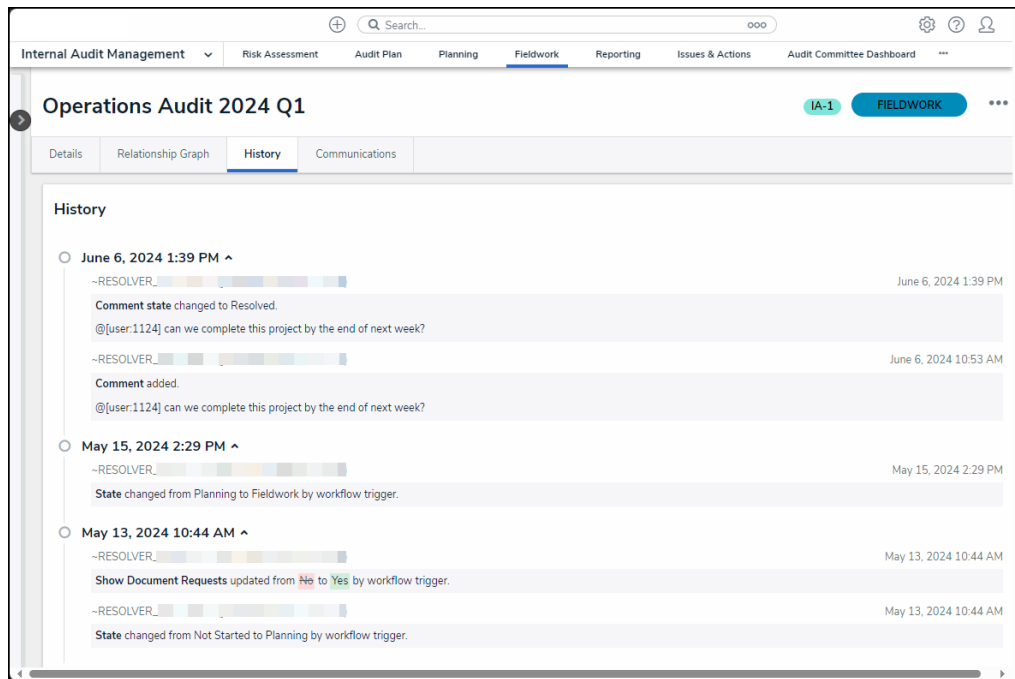

The **History** tab is located under the **History** tab on a standard form.

History Tab

History Tab

1. From the **History** tab, the forms history log will appear.

History Log

2. The system will make an entry in the history log for the following actions:

- Add new item
- Update an item
- Delete an item
- Link an item
- Unlink an item

3. The history log will track actions by date and log the following information:

- User ID
- User email
- Action description and results
